

ECHELON INSTITUTE OF TECHNOLOGY

FARIDABAD, HARYANA

GIRLS' COMMON ROOM FACILITY REPORT

Geo-tagged photographic documentation

1. Introduction

Echelon Institute of Technology, Faridabad, provides a dedicated Girls' Common Room to support the comfort, privacy, rest and informal academic engagement of female students. The facility provides a designated indoor space with seating and study arrangements, reading material, and a relaxation area. The accompanying geo-tagged photographs document the facility.

2. Facilities Observed

- **Dedicated indoor space:** A separate room is available for use by female students, with a door and window for access and ventilation.
- **Seating and study area:** A large table with chairs provides space for students to sit together, read, consult learning material and engage in academic discussion.
- **Reading material:** Printed reading material, including newspapers and other publications, is displayed on a dedicated rack for students' use.
- **Rest and relaxation area:** Two beds/daybeds with bedding are provided to enable students to rest when required.
- **Menstrual hygiene support:** A wall-mounted unit labelled as a sanitary napkin vending machine is visible in the room, indicating provision for menstrual hygiene support.
- **Student use:** The photographs show students using the table area for reading and reviewing printed material, as well as students seated in the relaxation area.

3. Facility Summary

S. No.	Facility / Feature	Observation from photographs
1	Dedicated common room	Indoor room designated for female students

5. Conclusion

The geo-tagged photographs document the availability of a Girls' Common Room at Echelon Institute of Technology, Faridabad. The room includes a study and interaction area, reading material, a resting arrangement and a wall-mounted unit labelled as a sanitary napkin vending machine. These facilities support students' convenience, privacy and well-being on campus.

6. Record and Verification Note

This report is based on visual evidence in the photographs supplied for documentation. The photographs establish the visible presence of the facilities but do not independently verify the operational condition of the vending unit, availability of sanitary napkins, cleaning frequency, accessibility arrangements, or maintenance records. These aspects may be verified by the concerned administrative team during routine inspection.
