

PERSONALITY DEVELOPMENT LAB REPORT

1. Introduction

Echelon Institute of Technology has a Personality Development Lab to support students' communication, presentation and employability skills.

2. Objectives of the Lab

- Provide a dedicated environment for personality development and communication-related activities.
- Support preparation for interviews, presentations and other employability-related activities.
- Facilitate computer-based learning and practice activities, subject to available software and resources.
- Encourage confidence, communication and professional readiness.

3. Infrastructure and Facilities Observed

- **Computer workstations:** Multiple desktop computers with individual monitors arranged across rows of work tables.
- **Furniture and layout:** Separate computer desks and an aisle between rows provide an organised workstation layout.
- **Lighting and ventilation:** Large grilled windows admit daylight; ceiling fans and overhead light fittings are visible.
- **Learning display:** A Pearson-branded board is installed in the room.

4. Pearson Collaboration and Scope of Services

The institute has a Memorandum of Understanding (MOU) with Pearson India Education Services Private Limited. It is intended to remain valid for three years from the last signature date, unless terminated under its terms.

Annexure A, "Scope of Services," on page 3 lists the following areas of collaboration:

1. Applicable student discount, if agreed, up to a limit of 10%.
2. B2B partner portal for institutions for test booking.
3. Online practice materials available through the institution's system, with download access from the website.
4. Online PTE Train-the-Trainer sessions for faculty; any offline session to be informed in advance and provided free of cost.
5. Two seminar/webinar informative sessions for students.
6. Score practice test as a reward for students.

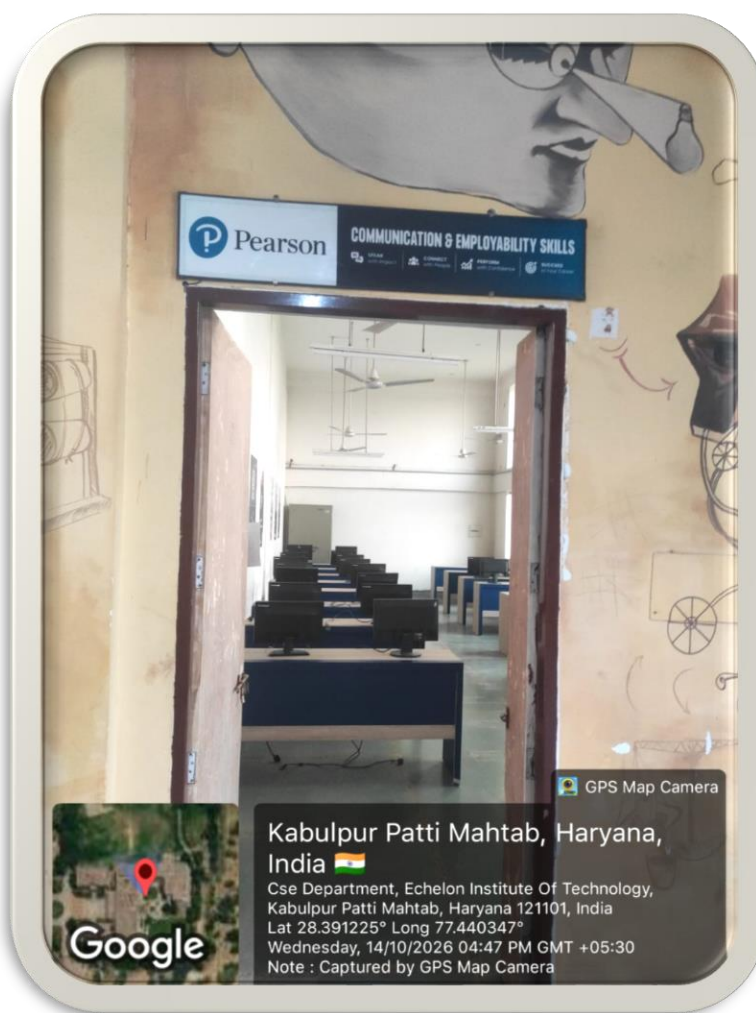

5. Facility Summary

S. No.	Component	Observation / documentary basis
1	Computer workstations	Multiple desktop computers and monitors visible
2	Furniture and layout	Individual work tables arranged in rows
3	Room environment	Windows, ceiling fans and overhead light fittings visible
4	Pearson learning display	Pearson-branded board visible
5	Institutional collaboration	MOU dated 6 February 2026; Annexure A on page 3

6. Geo-tagged Photographic Evidence

The supplied photographs carry GPS Map Camera overlays. Displayed coordinates are approximately 28.3912°–28.3913° N and 77.4399°–77.4404° E, with capture times around 4:47 PM on 14 October 2026.

Geo-tag shown on photograph: 28.391341° N, 77.439878° E | 4:47 PM

7. Conclusion

The photographs document a computer-equipped Personality Development Lab at Echelon Institute of Technology. The workstations and Pearson-related displays align with a learning environment intended to support communication and employability skills. The Pearson MOU dated 6 February 2026 provides a framework for collaboration, including practice materials, test-booking support and student/faculty engagement activities.
