About Echelon

ECHELON INSTITUTE OF TECHNOLOGY, FARIDABAD is one of the oldest technical institutions in NCR and established in 2007 affiliated to the JC BOSE (YMCA) University of Science and Technology, Faridabad which is state government, NAAC accredited grade A+ technical university approved by AICTE, New Delhi, MHRD & Department of Technical Education.

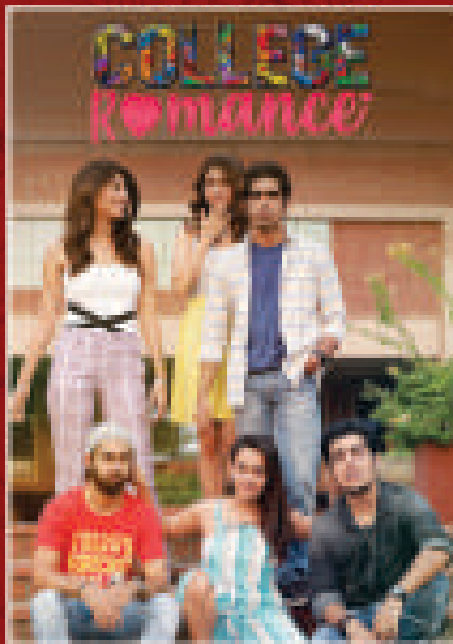

Echelon has carved out a niche for itself among the renowned technical institutes and scaled great heights both in academics and co-curricular activities. Spread over a sprawling lush green campus of 17.5 acres, the institute is located far from the maddening crowd in sylvan surroundings on Kheri-Manjhawali Road, Faridabad. Its picturesque scene and tranquil environment provide just the right ambience for serious study and research.

EIT is committed to fulfill its vision of: **“Technical and management leaders engaged in the evolution of life, being at the frontiers of the continuous technological, administrative and managerial breakthroughs inspired by ongoing exploration of self, society and nature”**
Through self-reflective consciousness by building a culture of inspiration, exploration and growth..

Over the last 17 years the organization has been actively involved in quality dispensation of technical and higher education on pan India basis. The group has also been credited for innovating virtual method of dissemination of education. No matter where a student is , geographical boundaries should not remain a hindrance in obtaining the finest of education. With the unwavering determination, passion, hope, effort & vision of so many behind the organization will always strive and work relentlessly to touch the new zenith of success with the entire student community. The Institute offers the wide range of degree courses in four major branches of engineering as well as management and post graduate courses.

Echelon has always been the go-to location for big media and production houses like NETFLIX, SONYLIVE, TVF.

Why Echelon?

- **Only Institute in the region with minimum 65% eligibility criteria** in 10+2 exams.
- Only Institute in Faridabad having **Centre of Excellence** for multi-disciplinary research & **Incubation Centre**.
- **State-of-the-art Infrastructure** spread over an area of 17.5 acres with centralized air conditioning.
- **Quality Faculty** absorbed from Academia and Industry. More than 50 faculties with Ph.D. degrees.
- **Mentoring System** dedicated to manage each student with personal focused interaction on individual basis.
- **Contribution to nation building** through its commitment for social service, entrepreneurship, its contribution to Prime Minister's initiative of Digital Literacy and Skill India.
- **Excellent arena of Sports facilities** covering all range of sports viz Cricket, Basketball, Kabaddi, Football, Throw ball etc. Coming up with a tennis court with flood lights and a swimming pool in fulfillment towards the goal of a multi-disciplinary sports complex in the campus.
- **The Clubs** covering all facets of being a human to create an integrated, holistic being inspired and empowered to lead a fulfilling contributive and creative life in the future to come.
- **Three-way Partnership** amongst Parents, Students and the Institute. Besides the direct engagement with the Principal and Deans, a direct interaction with the Board of Governors of the institute.
- **State-of-the-art cafeteria** to provide wholesome, nourishing, ayurvedic food awakening, reenergizing and bringing a spark to spirit, intelligence and the body.

- **Hostel life** – A modern Gurukul rich in human development towards creating evolved, empowered, compassionate beings. A life on one hand rooted in freedom, independent choice making, able to inspire support from others, taking full responsibility of the past and full of heartfelt commitment to its future.
- **Centrally air conditioned** distinguished library, best in NCR region with new range of books both the hard and the digital copies.
- Introduction of various **full scale semester** long courses by the clubs to train the students in their chosen field of interest, aspiration and longing. For example, a student can now pursue for a full scale photography course or training in dance/ music or a coaching in cricket/ tennis/ basketball.
- Creation of a whole new '**The Last Centre**' club with a dedicated 3000 square feet of space to train the students in becoming a conscious leader, able to make a meaningful creative contribution towards industry, society, environment and the nation around.
- **Ongoing training to the students and teachers** by high end industry experts in the fields of upcoming and continually arising new technologies making education relevant, meaningful and industry & research specific.

Courses	Fee Structure
Bachelor of Business Administration (GEN)	₹ 63000 per annum
Bachelor of Business Administration (DM)	₹ 68000 per annum
Bachelor of Computer Applications (GEN)	₹ 68000 per annum
Bachelor of Computer Applications (DS)	₹ 73000 per annum

- ★ University & Examination Fees will be charged extra.
- ★ Registration Fee of Rs. 10000/- along with all the academics credentials.

Eligibility Criteria

- ★ As per AICTE and J.C. Bose (YMCA) University of Science and Technology, Faridabad norms..

Admission Process

- ★ Admission is on the basis of JEE (Mains).
- ★ Students can apply online/offline for all courses.

Program Features

- ★ Project based learning.
- ★ Open book and online assignments.
- ★ Frequent industrial visits.
- ★ Industrial training.
- ★ Guest lectures by industry experts.
- ★ Constant monitoring on the performance of students.
- ★ Special doubt sessions and tutorials are organized for students.
- ★ Personality development classes.
- ★ Clubs and mentoring system.

Under Graduate Programs

At Echelon Institute of Technology, we offer a variety of programs and courses-

Bachelor of Technology in diverse branches:

Computer Science and Engineering (General)

Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Computer Science and Engineering (Data Science)

Electronics and Communication Engineering

Mechanical Engineering

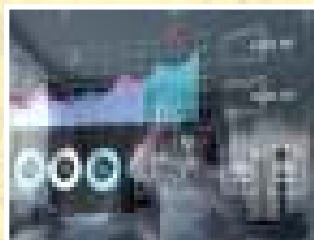

Civil Engineering

Bachelor of Computer Applications

BCA (General)

BCA (Data Science)

BBA (General)

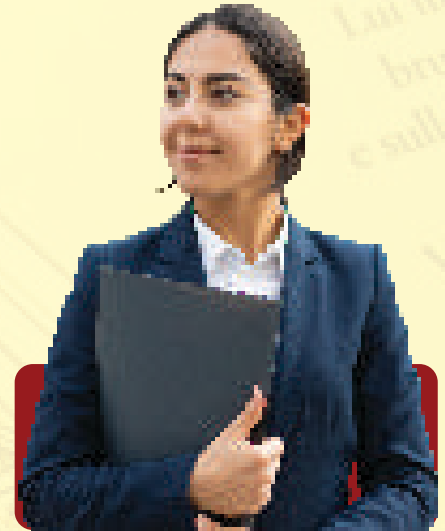

BBA (Digital Marketing)

Post Graduate Programs

Master of Technology (M.Tech)

EIT offers M.Tech program in Computer Science and Engineering and Mechanical Engineering. This program allows students to gain advanced knowledge and skills in their chosen field. The program curriculum is designed to provide in-depth theoretical and practical knowledge in the specific branch of engineering or technology. It includes subjects related to advanced technical concepts, research methodologies, data analysis, and problem-solving. Upon completion of the M.Tech program, graduates can pursue career opportunities in various sectors such as research and development, academia, consulting, manufacturing, IT industries, and government organizations. They can work as engineers, technical specialists, project managers, researchers, or pursue further studies at the doctoral level (Ph.D.) for a career in academia or research.

Master of Business Administration (MBA)

Echelon Institute of Technology introduces Master of Business Administration (MBA) program. The program is designed to provide students with the knowledge and skills necessary to succeed in the field of management. The program curriculum includes courses on topics such as business economics, accounting, finance, marketing, human resources, and operations management. Students also have the opportunity to participate in industry-oriented projects and internships. The MBA program at Echelon Institute of Technology is accredited by the All India Council for Technical Education (AICTE). The program also has tie-ups with several leading companies, which provide students with opportunities for campus placements.

Master of Computer Applications (MCA)

The Master of Computer Applications (MCA) program from Echelon Institute of Technology aims to produce skilled and knowledgeable human resources which are employable in IT and ITES. It imparts knowledge required for designing, planning and building complex systems in application software along with providing support to complex applications and systems. The program will develop professionally motivated and academically competent personnel, equipped with right moral, critical thinking and ethical values. An MCA graduate from EIT Faridabad will have the entrepreneurial bend of mind that can develop customized solutions for small as well as large enterprises.

Innovation by Echelonians

Celebrations

Echelon family enlightens the spark of enjoyment with celebrities, gloomy nights experiencing the thrilling performances. India is know as the land of festivals and celebrations, here at Echelon we celebrate all these festivals with known pomp throughout the year.

Fresher's and Farewell Party

These events provide informal, fun-filled environment to the students to interact with the Institute, teachers and peers, and make beautiful memories. Students show their talents of dancing, singing, mimicry, music etc. and various titles like Mr./Miss Evening, Photogenic, best dressed, best performer are given to encourage the students.

Prashasti

Echelon Institute of Technology believes in motivating the students to do better by felicitating them with several awards in different categories, like Outstanding performance in Academics, the most regular student of the class, enthusiastic learner, best project award, cocurricular achievement award, The Principal's award, Club of the year award, The newbie award, Esprit de Corp award, The Semper Fi award

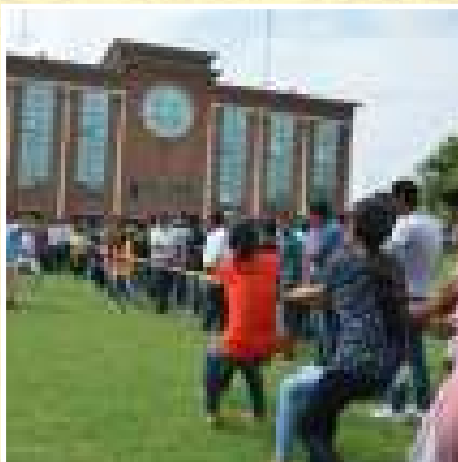

Orientation Day

EIT commemorates Orientation Day every year to welcome the new batch students and their Parents. All the dignitaries and faculty interact with them and make them aware about the various policies, rules, regulations to be followed in the Institute.

Sports

Echelon provides the niche to grow and play along, premier league and championships globally. There is no one who doesn't like sports. Everyone has played some sports in their childhood and many of them would still be playing it. Everyone has one favourite sport, so let's explore physically and mentally by being a part of it.

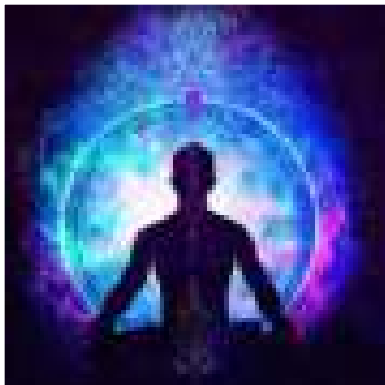

Sankalp is a student platform created by the students, for the students, enabling them to exhibit their skills in different domains. For development in career interests and goals, you can be a part of the professional clubs. To shape personal interests and hobbies, you can engage in one of the many social clubs. Membership in the clubs will help you gain invaluable leadership, social and personal skills.

Photography & Adobe Studio Club

This club has active members who are very efficient and are always available to click pictures of all the events that happen at EIT. They are always on their toes and cover all angles of the activities and all moments of student life at campus. While this is their major forte, they plan to bring out creative videos too. They also promote still photography, Shadow Photography, Mobile Photography Competition etc.

Samatva Club

This club organises various community services like blood donation, tree plantation, feeding stray animals , food and clothes donation ,etc. It celebrates NGO Day , Cancer Day, etc. and is also planning to conduct many more activities.

Sports Club

The club provides various playing opportunities to individuals at all abilities by providing the best environment. The club encourages the students to compete in different tournaments and sports festivals.

Kshitij, The Cultural Club

The club celebrates all the national festivals, organizing various cultural events, yearly techno-cultural fest, steering the institute carnivals, Conducting of Freshers and Farewells etc.

Open Source Development Club

To discuss the policies and principles of open source, the Open source helps build and create an environment where the benefits of open source development enable students to collaborate and explore beyond the classroom.

Social Media Club

Social media club was started to reach out to more and more users of our college and give introduction of our college and show our activities on social media which is done on day to day basis in the college by the students. In this techno friendly world, to mark a social media presence is the way forward to interact and be updated with the surroundings.

Carpe Diem, The Literary Club

The club offers a platform to enhance your knowledge for language and literature. It promises to cultivate a passion for anchoring, quizzing, debating, creative writing, literature, elocution, etc., among the students.

Big Data Hadoop Club

we aim to provide a platform for individuals to learn, collaborate, and gain hands-on experience with Hadoop. By joining our club, you'll gain practical experience, enhance your technical skills, and become part of a vibrant community of data enthusiasts.

Raso Vaisha, The Food Club

The Food Club is a vibrant community of food enthusiasts who come together to celebrate and share their love for all things culinary. By joining our club, you'll have the opportunity to expand your cooking skills, explore diverse cuisines, connect with fellow food lovers, and contribute to meaningful community initiatives.

Science Club

By joining our club, you'll have the opportunity to deepen your understanding of scientific concepts, collaborate with fellow science enthusiasts, and make a positive impact through community engagement.

Robotics Club

Robotics Club is a community of students who derive pleasure in creating electronic systems that may work without human intervention. Students who are interested in learning and working with robots. The student is provided with mechanical, production, electronic, and informatory aid besides the indispensable guidance of experienced members.

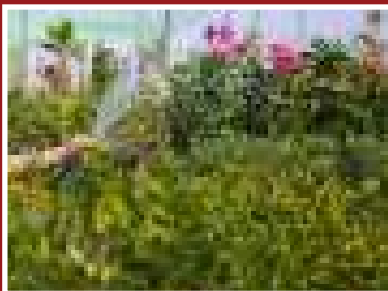

The Last Centre Club

Creation of a whole new 'The Last Centre' club with a dedicated 3000 square feet of space to train the students in becoming a conscious leader, able to make a meaningful creative contribution towards industry, society, environment and the nation around.

NSS Club

The NSS Club at Echelon Institute of Technology, Faridabad is a dedicated group of individuals who strive to make a positive impact on society through various service activities and initiatives. Together, let's strive for a society where service becomes a way of life. Sign up today and be part of this incredible journey of selfless service and personal growth!

Horticulture Club

The Horticulture Club is a community of plant lovers who come together to explore the fascinating world of plants, share knowledge, and cultivate a love for horticulture. By joining our club, you'll have the opportunity to deepen your knowledge, cultivate your gardening skills, connect with fellow plant enthusiasts, and contribute to the beautification of our campus and community.

TECHELON – The Experiential Education

Technical event titled "Techelon – The Experiential Education". The aim of this event is to expose the technical and presentation skills of every student at the institute

It is held in the starting of every semester with the aim of providing a platform for students to develop and showcase their technical prowess. The activities culminate after every semester in the college campus of Echelon Institute of Technology. External experts committee is recruited for analysing projects and presentation. They advise our students on the thrusting areas requiring enhancements and their valuable expertise which incorporate a new learning dimension in shaping the future of our students.

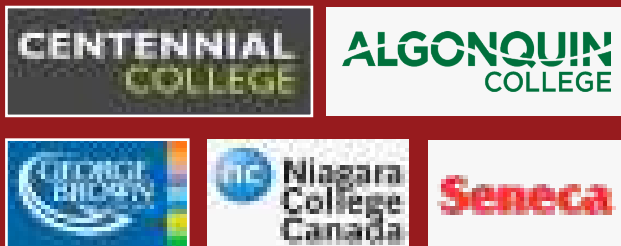

International Internships

- Career workshops for students by international faculty.
- Scholarship scheme for students applying abroad.
- Direct admission in globally recognized foreign universities.

Australia

Canada

United Kingdom

Industrial Visits

In order to give first hand industrial experience to engineering students, echelon organizes industrial visits where the students relate their academic theories with industrial practices and get practical knowledge. This paves the way for students to further expand their knowledge not only theoretically but also in terms of practical applications, so that they can join their future recruiters with the strong grasp of their domain knowledge. Some industrial visits are listed below:

Faculty Development Programs

The objective of these FDP' is to enhance the teaching and other skills of the faculty, and to make them aware about modern teaching tools and methodologies. It provide an opportunity to acquire knowledge about current technological developments in relevant fields. It will not only promote the professional practices relevant to technical education but also motivates the faculty to achieve competitive teaching and learning environment, thus channelizing development with respect to academic qualifications and personal matters.

Recruiter's Reviews

Over all it was a very good experience. The students are very strong technically. Thanks for inviting us. We take extreme pleasure in recruiting your students.

AAFREEN HANNAN

HR Business Partner
Big Oh Nation Pvt. Ltd.

Student of Echelon are very competitive and it is difficult to filter the candidates in our rigorous recruitment process. The best thing about the institute is that they make their students able to work in groups with other professionals.

NEERU SHARMA

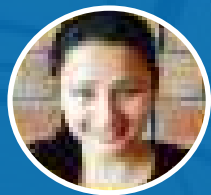

Asst. Manager (HR)
Sagacious IP

We've had a good experience with Echelon. Thanks for conducting smooth place drive.

KARTIK KHARBANDA

Founding Member
F13 Technologies

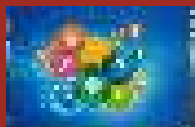

Echelon has some very good talent and well trained students who are good in technical world, we have recruited some. The Infra of the college is very good.

RISHU SINGH

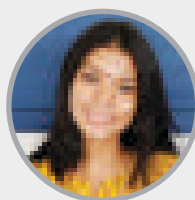

HR Manager
Ex2 Solution Pvt. Ltd.

Smart Classrooms

From upcoming session all classes will be in smart classes making teaching learning simple, effective and experiential.

Student Testimonials

Echelon is an excellent place to learn where the learners are exposed to a fine blend of knowledge, skills and values to shape them in fine human beings besides equipping them with excellence in academics pertaining to their area of study. My stay at Echelon is remarkable, and I will cherish it for the rest of my life.

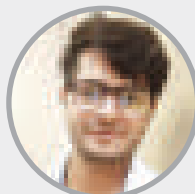

ISHITA BHATT

B.Tech CSE (Batch: 2019-23)

My institute has always given me the confidence to approach my dreams with planning and preparation. The extracurricular activities, internship opportunities, expert talk, industry-academia interface, and holistic education ensured that we have a degree and the skills to excel in the field we are going to.

ANIKET KAUSHIK

B.Tech CSE (Batch: 2020-24)

It was my great journey in Echelon Institute of Technology in my department of ECE. Our Placement Officer Mr. Sachin is a friendly person who addresses all the students from his busy schedule which helped us to know about the interview process prior to the actual drives by conducting placement training in Pre final year on soft skills and quant which helped us to crack the interview.

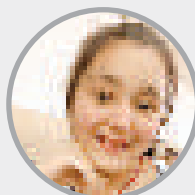

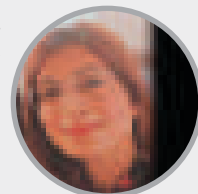

PRINCE KUMAR SINGH

B.Tech ECE (Batch: 2017-21)

I would like to express my sincere gratitude to Echelon for helping me at each and every step. The relationship between the students and faculty members is very cordial. My two years experience at Echelon has made me to enhance my knowledge and skills to a better extent. I believe that faculty here can definitely be ranked high.

SANIA WADHWA

BBA (Batch: 2019-22)

It is believed that a person's life is molded at the early 20s and it is very important to be at the right place. In that case, I am glad that I am at Echelon. Academic excellence along with the overall growth of the person is what the institution aims at.

RIYA

BCA (Batch: 2021-24)

Frequently Asked Questions

FAQ?

Ques 1:- What additional academic facilities do you provide at Echelon Institute of Technology?

Ans:- As a commitment towards the tripeptide partnership among the institution, students and their parents towards a common shared future, the institution is committed to make available the training, research and support structures enabling every student to have a well-rounded training in the areas of core competence in their self-inspired chosen fields. The institute makes available:-

- Recruitment training i.e. Aptitude and reasoning training, Group discussions, verbal and soft skills training, Personality development programs.
- Training in new arising technology by the high-end industry experts in the institute as well in the industries.
- Multidisciplinary research with new projects.
- Immersion programs from foreign universities.
- Motivational sessions.
- Workshops on Friends, family and relationships, Confidence, power and Excellence, Freedom, Leadership etc.
- Industry oriented programs.
- Community services.
- Facing and finding solutions to the challenges in communities and in industry.
- Entrepreneurship development.

- Foreign language learning.

Making them employable to be absorbed in high end companies or become entrepreneurs and job creators or making them exam ready in pursuit of their higher education, ultimately supporting them becoming a leader in their chosen areas.

Ques 2.- How are the placements opportunities at Echelon?

Ans.- At Echelon, we firmly believe the pursuit to alter the quality of life is to honor the human dignity. Any education or training, therefore, finds its culmination in a meaningful contribution to the society, one of which major channel is the industry in the country and outside. Hence one of the goals of the outcome-based teaching at Echelon is to make its students employable in the industry. Echelon in its commitment to place primary importance to placements, conducts:-

- Recruitment training i.e. Aptitude and reasoning training, Group discussions, verbal and soft skills training, Personality development programs.
- Training in new arising technology by the high-end industry experts in the institute as well in the industries.
- Industry oriented programs.
- Industrial visits.
- Leadership workshops.

Frequently Asked Questions

FAQ?

Echelon gives written undertaking to every student to the effect that the trainings provided at Echelon towards the fulfillment of the aim as mentioned above, guarantees 100% at least 3 job offers from quality high end companies with a robust package. Our commitment towards their future begins in the very first year and every student is asked to begin inquiring as to what they would be inspired by at the end of their term at the institute. Some of the companies with whom we have collaborations and the list of placed students details are also enclosed herewith.

Ques 3:- What are the placement packages at Echelon?

Ans:- The interviews are conducted in the campus or in the company itself and the appointment letters are given as per the company policy. The highest package offered to the students in the last academic year was 22 LPA and lowest was 3.8 LPA. Some of the companies with whom we have collaborations and the list of placed students details are also enclosed herewith.

Ques 4:- Why should I take admission in Echelon Institute of Technology?

Ans:- Welcome to the future of education. Echelon is run by a spiritual trust and is dedicated to the transformation and evolution of education. We at echelon, firmly believe that the time has come to take the education to the next level where

education is not just an access of a degree but an access into an experience giving rise to the capacity to ongoingly create meaningful perspectives bringing about holistic solutions to individuals, institutions, industries and ultimately to the whole society. Education as perspective coming through an experiential training, as a conscious leading edge of science, technology and administration is the very philosophy, the programs, processes and trainings have been designed at the campus giving a 360 degree holistic training to each and every student towards the realization of their self-inspired, intentful aspirations and goals ranging from training in the core competence areas to realization of the meaning and purpose in life through team building and leadership and the creative genius to face any challenges, issues or complex problems in industries, communities and society at large. The holistic education includes not just the areas of core competence but also the allied areas which may include drama, literature, sports, art, music, dance, robotics, sciences, photography, cooking etc. The meaningfulness of life is expressed by the evolutionary spirit in the human consciousness through the compelling urge to create, innovate and continual aspiration to reach the next level in the face of the mysterious uncertainty of the future and therein therefore this adventurous pursuit to continually excel surprises one through

Frequently Asked Questions

FAQ?

revelation/discovery of new goals which one otherwise earlier thought could never have been their goals. Hence, the institution believes that the discovery of someone's purpose/love/inspiration is a continuous process and no one knows when they will find their true inspiration and hence has to be prepared for the same. This has been worked out through very effective programs such as:-

- Personalized mentoring
- Industry Institute Partnership Cell
- 15 Clubs
- Foreign collaborations
- Industry oriented program
- Faculty Development Programs
- Research and development
- Self-learning
- Group learning
- Flipped class pedagogy
- Projects and innovation
- Training in sports
- Preparation for CAT/MAT/GRE/GATE etc
- Preparing for higher education and their entrance exams.

Ques 5:- Why is Echelon's fee higher than other institutes in this region?

Ans:- Coming from the holistic vision of being the conscious leading edge in the fields of technology

and administration, with a commitment towards unparalleled service to humanity and the understanding that the highest form of intelligence is compassion, the very context in which Echelon works is that the creation is always collaborative in nature. An institution is nothing but coming together of students and teachers in aspiration of a shared common great future and this shared future cannot be created in isolation. At its core, it requires an evolutionary partnership among the students, their parents and the institute. This very context of collaborative creation and evolutionary partnerships is at the heart of the policies of Echelon. The fees expected by the institute is more of a commitment amount sought from the students which is highly subsidized by the spiritual trust running the institution. The high-tech, high-end, 360 degree wholesome training addressing multitudes of faculties of being human is not possible through limited means but being a spiritual enterprise, Echelon does not expect the students to pay the whole and hence the subsidy. Also, in today's time and age, when education is also looked upon as industry, Echelon continues to be very traditional in its outlook and continues to see education as a noble service and treats students and their parents as partners, and not customers of the institute. This relationship between the institute, students and their parents is for the life and we treat and value the relationship in all its dignity

Frequently Asked Questions

FAQ?

and therefore provide a subsidized education. The kind of state-of-the-art infrastructure and the trainings and education being provided at Echelon, if charged fully, would cost at least 3-4 times more than what actually Echelon is asking its students to commit. There are several private universities and institutes in Delhi-NCR which are already charging fees to the same extent but Echelon is an exception and charging 3-4 times less. As the cost of education is increasing by the day and subsidies are more difficult to be met by the spiritual trust, Echelon is going to withdraw the part of subsidies and this is the last year wherein you are getting full subsidized education at Echelon.

Ques 6:- What are the qualifications of faculties at Echelon?

Ans:- The high-end training can only be imparted by highly qualified faculties who have continual urge to learn ongoingly and undergo regular trainings. Echelon boasts of more than 50 PhD faculties and rest are with master's degrees. We have more than total 125 faculties in the institute. The qualifications and experience of the faculties as per the AICTE/UGC/Government norms. The faculties are continuously being trained through various Faculty development programs in the campus, in the industries etc. They are also sent for hands-on training in the top level institutes of the country and abroad.

Ques 7:- What do you offer at Echelon?

Ans:- Echelon is committed to pioneer the experiential education in the country. Traditionally, higher education has been limited to classroom, labs, tutorials, at best engaging in problem solving, doing assignments and ultimately through rote learning, making an effort to score as highly as possible in the examinations. Acquiring a degree has been the only end of it all for a long time in our country, ignoring the fact that this nation has been a leading force in search of knowledge and the pursuit of teaching, learning and education in the various facets of life, communities, science, technology, commerce etc. through hands-on experiential; self and group learning in ashrams wherein a direct transfer of knowledge was the preferred mode among teachers and their disciples. Coming from a holistic perspective of education rooted in the exploratory process evolved in this country over millenniums. At Echelon, education is being imparted by following a rigorous process of personalized, focused attention on every student through an organically structured system of mentoring, self-learning, group-learning and direct hands-on experiential training in industries, communities under the tutelage of a senior faculty through projects and assignments chosen by the faculties in communion with the students themselves. A self-inspired learning makes the

FAQ?

educational process fun, adventure and ultimately to search for a realized understanding of the fundamentals of the subject concerned, making the students not just employable in the industry but prepared enough to be coveted by any industry or institution for job or higher learning. The process includes 360 degree education wherein the students themselves discover the calling of their life and a vision to how they would be most effectively contributing through them to their families, communities and ultimately to the entire humanity. The institution has in addition to the robust academic processes in the core competence areas, more than 15 clubs and a sports academy to give them an all-round 360-degree education in the pursuit of their discovery of their calling of life and it goes without saying that the institute has centrally air-conditioned 17.5 acres sprawling campus. The institute supports the entire academic program beginning first year itself through a dedicated centre of excellence wherein trainers in specialized areas focus the students in preparing for the times we live in with continuous adaptation and evaluation with the requirements of the industry and academia in a fast-changing universe. This is further supported through expert industry people training both students and faculties. The institution has recruited highly trained most effective experts from industry and academia to not only educate the students in

academia but also train them as mentioned supra in accordance to the changing and evolving industry and academia, preparing them to crack any interview, group discussions or entrance exams in pursuit of job or higher education. A dedicated entrepreneurship cell is also there to meet the challenges of this millennia, not as a job seeker but as a job provider. The campus life is an ongoing celebration of life, honoring the talent, intent and inspiration of each and every student through curricular and extra-curricular activities, the high point of which every year are the annual festivals being held at Echelon. This includes technical, cultural and sports festivals held at campus where shared collaborative creation is work in play bringing out the hidden talent and inspiration in every student to the ecstatic fulfilment of one and all.

Ques 8:- What are the Community services at Echelon?

Ans- Compassion is the highest source of intelligence- that's what lord Shiva says in Shiv Puran. An institution of learning is incomplete without taking its students on the path of discovery of the values of life, they would be inspired to share in families and communities. The entire structure of teaching and learning at Echelon is dedicated to the discovery of the values of life that each student would love to share with the communities around. The path of

Frequently Asked Questions

FAQ?

discovery of values is uncovered and supported through community services as well. These community services include blood donation camps, health camps etc.

Ques 9:- What are the Scholarships offered at Echelon?

Ans- Education at Echelon is being imparted under the context of transformation and evolution of education as an unparalleled service to humanity, the entire education is being provided at subsidized tuition fees by the parent spiritual trust running the institution. Not only that, further scholarships are provided to all those students who have hunger for learning but are low on resources ensuring that no one is denied the fulfillment of their dreams due to lack of means and resources. Scholarships in different area and on different parameters are provided on merit.

Ques 10:- What about the Transportation and hostel facilities at Echelon?

Ans- The campus life at Echelon, rooted in the culture of inspiration, exploration and invention truly can be a possibility when the students start living, drinking, breathing this community based culturally rich living in a safe, secure, coordinated and synchronized environment. This becomes possible through nourishing hostel life for the students residing in the campus and an effective transportation for the day scholars. The state-of-

the art centralized air conditioned hostels and transportation integrates every moment of campus life or commutation as an opportunity to further advance into the future, the students are here to discover and fulfil.

Ques 11:- What will you say regarding the negative publicity of Echelon?

Ans- Echelon being at the forefront of transformation of education, in its pursuit of pioneering the experiential education with the motto of students first i.e. student is at the center of processes, rules, regulations governing the teaching and learning is geared towards the wholesome growth of students. Echelon has been instrumental in bringing about radical changes, not only within the perimeter of its own campus but also challenging the inert, outdated, expired modes, mediums and processes followed by the institutions around, regulatory bodies and the government of the day. Firmly believing that we are a champion institute, we have been continuously challenging limitations imposed on the educational processes in this country, more so due to lack of any initiative to continuously work upon and evolve the outdated processes in terms of curriculum, infrastructure, rules, regulations, policies etc. and therefore the institution unfortunately got embroiled in various litigations against regulatory bodies, government of the day and other institutes, bringing on itself the wrath of

Frequently Asked Questions

FAQ?

the same but to its credit the institute has won all the litigation numbering almost 20 litigations and have list none, bringing about radical changes in the processes, rules, regulations by these institutions, regulatory bodies and the governments, making them student orientated. Hence its no surprise that many competing institutes have a lot of unsavory words to speak against the champion institution that Echelon is demanding and setting higher and higher optimum standards in the interest of students.

Ques 12:- How do you define your success?

Ans- The measure of success at echelon is the students fulfilling their discovered inspiration and ultimately living their dreams in industry,

institutions and communities around, affecting the quality of life of one and all.

Ques- What are the Obstacles faced by the institute?

Ans- The inertia and the lack of urgency prevailing all around in respect of the primacy that the education deserves as the agent of transformation of communities, nations and humanity on part of institutions, regulatory bodies and the government. What makes it serious is total lack of understanding that it is the student who is the focus of institution, regulatory bodies and the government and not vice-versa. Nobody seems to understand that it has to be the Student First and not government first.
