PROLOGUE:

MESSAGE FROM THE EDITOR:

It is with immense pleasure that I was given the opportunity to work on the edition of the college Newsletter. As we all know, a newsletter mirrors a college. Its vision and mission. It also highlights events, activities and academic prowess and achievements. In this edition, I have tried to capture last six months excitement and activities. I do hope that the newsletter encourages many more including students to use it as a platform to express their creativity.

The function of education is to teach one to think intensively and to think critically. Intelligence plus character-that is the goal of true education

ECHELON INSTITUTE OF TECHNOLOGY

INSTITUTE MISSION AND VISION

Mission:

M-1 Having a culture of inspiration, exploration and invention through effective, experiential teaching-learning giving rise to ever evolving knowledge and wisdom.

M-2 To have self-inspired students ever engaged in continually working upon and sharpening and deepening computational, creative, innovative and leadership consciousness.

M-3 Having students established in self-reflective consciousness, committed to personal, social & human integrity and engaged in deep inquiry and conversation, giving rise to shared, inter-subjective human values and consciousness.

Vision:

The institute is committed to fulfilling its vision of- "Technical and Management leaders engaged in the evolution of life, being at the frontiers of the continuous technological and administrative breakthroughs, inspired by ongoing exploration of self, society, and nature through self-reflective consciousness by building a culture of inspiration, exploration and growth."

ECHELON INSTITUTE OF TECHNOLOGY

MISSION AND VISION OF BACHELORS OF COMPUTER APPLICATION

Mission:

M1:- To provide the future leaders in the area of computer application and information technology through the development of human intellectual potential to its fullest extent.

M2:- To enable the students to acquire globally competence through developing their problem solving skills and exposure to latest developments in area of computer application and information technologies.

M3:- To educate the students about their professional, social and ethical responsibilities.

Vision:

The department aims to make a place at both national and international level by producing high quality ethically rich computer application engineers and IT professionals conversant with the state-of-the-art technology with the ability to adapt the upcoming challenges in information technologies and their applications to cater to the ever changing industrial and societal needs. It endeavors to establish itself as a center of excellence in teaching and research to produce skilled human resource for sustainable nation's growth and having technological impact on the people's life

STUDENT SPEAKS

Some of our students told their real feelings and real facts about college.

Its growing , uplifting , opportunity and full supportive environment . Staff of our college is very supportive and cooperative. I feel very lucky and blessed to find a institution like this. -

--Harshita

(22-BCA-036)

I really like the faculty and I had the best environment for my studies and overall growth . I learned many new things from my teachers who are very helpful in every way they could .

-Aradhna

(22-BCADS-007)

My name is Shreya. I am studying BCA at echelon institute of technology. The college is very good. It has good infrastructure and it has best facilities . Echelon is a place where creativity and talent is given the first priority. It has been great to be here and I feel Echelon is more advanced compared with other colleges.

-Shreya

30 NOVEMBER 2023 RECOGNITION DAY

Ceremony - Prashasti 2023 a spectacular success!

A Special Thanks to our incredible students for their hard work, determination, and outstanding contributions. You're achievements have truly illuminated our journey over the past year!

THANKYOU

Thank you—not only for the academic education, but for being an excellent role model and for instilling important values in us that will guide us throughout our life.

I am beyond grateful for all the creative and engaging lessons you have taught this year! Your dedication to teaching and unwavering commitment to your students is truly admirable, and we were so fortunate to have you this year!

I want you to know that your hard work, dedication, and passion for teaching are truly appreciated. Thank you!

QUOTES/SHAYARIS

"You have to dream
before
your dreams can come
true"

My teacher gave
me best gift for me;
beleiving in me.

©puneet kumar
[Mojato

College

A place where a group of strangers
meet, that turns out to be a **beautiful**
family at the end.

From
Bunking lectures,

To
Wanting to attend
them one more time,

Happy days came to an end.

"When can you get happiness
and sorrow at the same time?"

"On the last day of exam," The last
year college student answered quietly.

INTERVIEW QUESTIONS FOR FRESHERS

1. Tell me a little bit about yourself.

The interviewer wants to know how you would communicate about a topic that only you can describe well. Here, the goal is to show them what is not already mentioned in your resume. It is a good opportunity to tell them about your skills with a personalised answer without cramming too much information.

Example: *Starting from my schooling to post-graduation, I have taken part in several community service events, such as volunteering to teach mathematics to the underprivileged. My participation and success in state and zonal level chess championships taught me lateral thinking and prepared me for challenging assignments. Thanks to my experiences, I have a broader perspective of life and profound respect for hard work.*

2. What are your hobbies?

The focus of an HR interview is to understand the kind of person you are and whether you can be a correct fit for the job. The interviewer may try to assess your personality traits with a seemingly unrelated question about your favourite pastimes. While your hobbies and interests may be out of the realm of the job, they can still apply to the job.

Example: *My degree in English literature has also widened my range of vision into classics written in world languages. When I am not reading, I am learning Spanish through an app. During my teen years, I won many accolades for creative writing and elocution, and I continue that habit to date by partaking in open mics for poetry reading.*

3. Why do we hire you or how are you the right candidate for this job?

This may be among the most challenging interview questions for freshers and the most significant chance to project your strengths in a positive light. Refrain from comparisons with other candidates vying for the job and be confident about what you can bring to the position.

Example: *I possess the required qualifications for the position, and my academic performance speaks for itself. In addition to the final year project that I finished at Clear Manufacturing Company, I was a part of the team that interned at the same facility the previous semester. This period helped me understand various aspects of the production cycle, workplace safety and factory functions. During my summer break, I enrolled in CNC programming and machine designing software courses, which allow me to multi-task if needed.*

Research

INTERVIEW QUESTIONS FOR FRESHERS

4. Why do you want to work here and what do you know about this company?

The person interviewing you wants to know whether you are keen on joining the organisation, or if this opportunity is a learning curve for you. You can expect this question no matter which field you choose, so you can start by doing some research about the company's history, objectives and verticals.

Example: *Although established a couple of years ago, your company is among the fastest-growing e-commerce companies in the country. As a loyal customer of the company myself, I have been following your success stories on social media and mainstream news. Your eco-friendly practices and CSR drives have been quite inspiring to youth. Also, the corporate leadership and executive training programs hosted at your campus can go a long way in accelerating my career.*

5. How long do you plan to remain with us and where do you see yourself in five years?

Employers invest a lot in training and onboarding new employees into their roles and respective teams. If they hire you, they want to be sure that you are going to stay for the long term. If it is a short gig, refrain from misrepresenting your motives—express your enthusiasm for being considered for the position in such an esteemed company and express your willingness to continue in a good work environment.

Example: *For a fresher like me, the initial years make for a solid foundation over which I can build my career, and I can ask for no better organisation than yours. I would like to serve the company for as long as I can have an enriching career. From what I have heard, mentors take recruits under their wing in a tailored approach. In the next couple of years, I plan to polish my skills and deliver my full potential to every project I am assigned.*
