Our life experiences and responses to them are of critical importance in how our leadership skills are formed and the type of leaders we will become. These five points remind us of the values and set of standards that can determine our attitude, choices and actions:

Ethics and Integrity: The best leaders are the ones who are interested in doing the right thing. This means doing the right thing for employees, stakeholders, and for your community. Taking short cuts, cutting corners, or being dishonest may seem advantageous in the short-run but in the long term, it will destroy value. When you focus on ethics and integrity you will feel good about who you are and who you are working for.

Intellectual Curiosity: Do not be afraid to ask questions.

You are not expected to know everything but take it upon

yourself to do your research, develop your knowledge, and seek perception from trusted colleagues and mentors. Understand why processes are in place and look for areas where you can contribute to enhance and improve overall operations.

Teamwork: The success of a project depends on not one person but the entire team. Abandon the “me, myself and I syndrome” and understand your unique role and those of your team members. Do not remain in your silo. Venture out of your department and study the functions of all departments within the company. Focus on becoming acquainted with each employee regardless of whether they are the front-line or senior executives. We all have a part to play in the success of a business and no department is less important than another. Learning about other departments and recognizing their value will help you better understand how you and your efforts fit into the overall success of the company.

Effective Communication: Communicating effectively is essential. Without it, there is no productivity. In this fast paced world, you only have a few minutes to get your point across so use it wisely. Be concise and most of all, do your research—be able to answer any questions that are proposed from a position of knowledge. Focus on developing your writing and presentation abilities and take advantage of any opportunities to practice your public speaking skills.

Think Like an Owner: Your productivity depends on your ability to take ownership of your work. Taking ownership means taking responsibility for both your successes and your mistakes. It means taking full responsibility of your work, your department and your company. Whether you succeed or fail at a task, taking ownership is the catalyst for improvement. Ultimately, it boils down to taking pride in your work and producing results that you can be proud of as a true reflection of your abilities.

Being an authentic leader is not something we are born with. It is part of a journey of personal growth we take throughout our lives—in the challenges we face, the individuals we encounter, and our ability to adapt and affect change.

“A true leader has the confidence to stand alone, the courage to make tough decisions, and the compassion to listen to the needs of others. He does not set out to be a leader, but becomes one by the equality of his actions and the integrity of his intent.”

Ally Montillo

Welcome New Faculty

Ms. Poonam Malhotra

Qualification: Ph.D (Mathematics), M.Sc. (Mathematics), B.Ed

Areas of interest: Pure Mathematics

Experience: 7.5 years

Hobbies: Singing, Dancing & Badminton

Ms. Shalu Aggarwal

Qualification: Ph.D (P), M.Sc. (Organic Chemistry) from JMI, CSIR-NET (AIR-32), B.Sc. (H) from DU

Areas of Interest: Organic Chemistry and Biochemistry

Experience: Research- 04 years

Hobbies: Singing, Dancing, Reading Books

Mr. Saif Abbas

Qualification: M.Sc. (Mathematics) from JMI, PGD (Data Science) from JNU

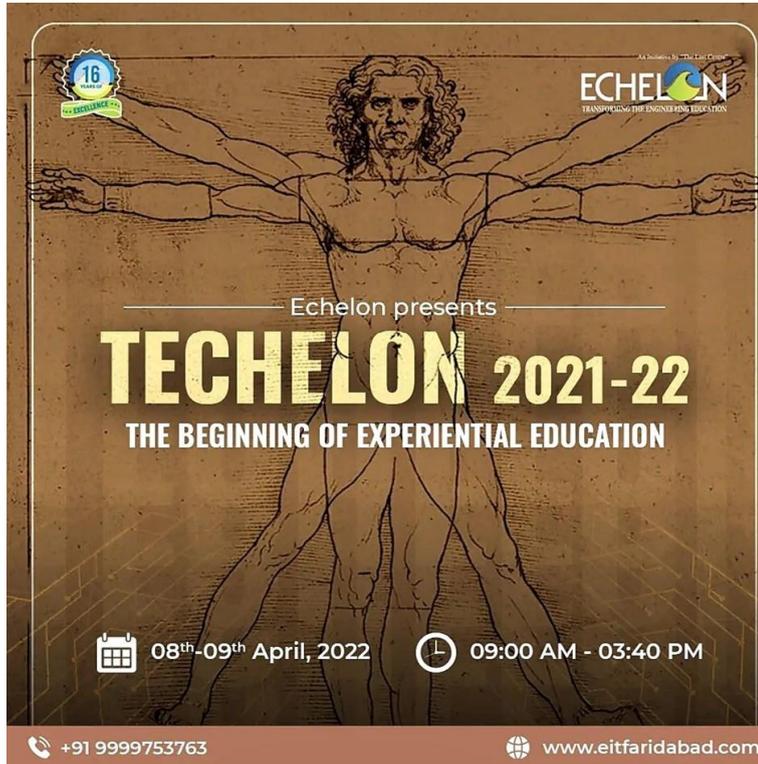

Areas of Interest: Mathematical Modeling and Machine Learning

Experience: 05 years

Hobbies: Martial Arts and Badminton

The ECHAS TIMES

Events Gallery

Techelon 2022, 08 & 09 April

The aim of this event is to expose the technical and presentation skills of every student of the institute. It is held in the starting of every semester with the aim of providing a platform for students to develop and showcase their technical prowess. The activities culminate after every semester in the college campus of echelon institute of technology. Many External experts come for analysing projects and presentation. They advise our students on the thrusting areas requiring enhancements and their valuable expertise which incorporate a new learning dimension in shaping the future of our students.

Women's Day Celebration

“Our world would mean nothing without women. Their courage that exists in perfect harmony with amazing tenderness saves our world every day.” Well, every day is Women's Day. At Echelon, we celebrated it with a treat to all the female faculty members and a thanksgiving speech for all of them.

Parents Institute Conclave

After the tough times of social distancing, finally we were able to host a parent-institute conclave where in the faculty members could meet and interact with the parents of their mentees. It authenticated the three-way partnership, the institute, parents and the student.

Debate Competition

On 11 March 2022, Carpe-diem organized the debate competition on the topic 'The war against Ukraine is justified' for students of B.Tech, BBA and BCA first semester. 19 participants registered for the event out of which 15 participants presented their stance on the topic. The audience was captivated by the information that the students had regarding this global crisis. The participants presented their stance in a clear, concise and concrete manner. It was decided that the winners should be declared for each stance. The judges Dr. Irfanullah Khan, Ms. Shefali Madan and Ms. Aakriti, gave a unanimous verdict and also motivated the participants to keep learning and improving. Mr. Lakshay from ME 1st sem and Mr. Sahil Ali from CSE 1st sem bagged the first prize speaking in favour and against respectively, while Ms. Anupama Singh and Ms. Bhawna, both from CSE 1st sem won the second position. The club coordinators Dr. Anupama Jain and Ms. Nasima Firdaus proposed the vote of thanks.

Clickmoments

The students clicked some of the best pictures and showcased their photography acumen. The photography competition was held in the month of February 2022. After the first round, 10 participants were selected for the second round. The second round was held in Delhi, where they could click the best of the photographs. The event was made even more exciting with wild card entries, giving a tough competition to the other participants. Mr. Radhe Shyam from B.Tech CSE first semester bagged the first prize, Mr. Rishabh from CSE 1st sem won the second prize and Mr. Chirag Taneja from BCA 1st sem received the third prize.

Celebrations by the students, for the students!!

Holi 2022

Freshers 2022

मेरे जीवन की कलम से

1. वो भी थी मेरे पतझड़ की बहार,
जिसने बनाया मुझे शब्दों का
कलाकार।
न रुकूँगा मैं- न थकूँगा मैं
एक जेदन दे िाऊँगा उसके
िीवन को आकार,
िब ढल िाएगी उसकी सुूंदरता
की बहार।
बुढ़ापे तक करूँगा उसका इंतज़ार,
बस इतना सा है मेरा सच्चा प्यार।

2. रात के जसतारों के उस तरफ भी
कोई
िहान है,
जिंदगी के हर कदम पर इम्तिहान है।
मेहनत करना ही मानव की शान है,
टूटकर जब खरना जब खरकर मत्खलना
यही मेरी पहचान है।

Mr. Man Singh
Assistant Prof.

Nazar thi thami is
ghadi ghadi pr ,
Jis ghadi lga ki vo
ghadi aa gai,
Khtm Hui wqt k
intzar ki vo ghadi,
K unke deedar ki ab ghadi aa gai ,
Ghadi bhr k liye thi nigahen thami,
Jb nigahon me thi vo chhavi aa gai,
Vo aae or chl diye us ghadi ki trh,
Waps intzar ki vo ghadi aa gai,
Na thami ye ghadi intzar ki ,
Na thami vo ghadi tere deedar ki,
Raah bhtaki njr thi ghadi bhr ko jo,
Laut kr fir ghadi pr is ghadi aa gai.
Laut kr fir ghadi pr is ghadi aa gai.

Ms. Keerti Rajpoot
Assistant Prof.

Educationists should build the capacities of the spirit of inquiry, creativity, entrepreneurial and moral leadership among students and become their role model.

Dr. APJ Abdul Kalam

The ECHAS TIMES

Fun with Maths

Mathematics can be fun if you treat it the right way.

Maths is nothing less than a game, a game that polishes your intelligence and boosts your concentration.

The golden rule is to know that maths is a mindful activity rather than a task

Lets us try!!

Q1. If $1=3$

$$2=3$$

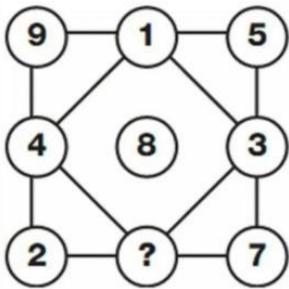

$$3=5$$

$$4=4$$

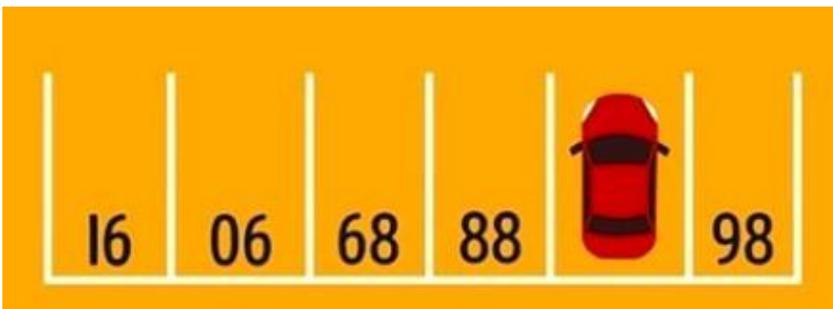

$$5=4$$

Then, $6=?$

Q.2 Replace the question mark in the above problem with the appropriate number.

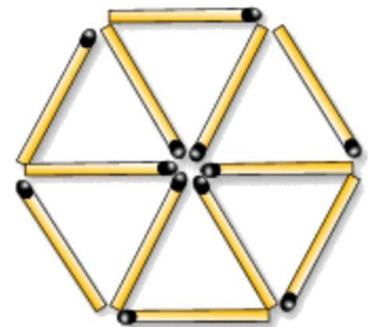

Q3 What is the number of parking space covered by the car?

Q.4 I am an odd number. Take away one letter and I become even.
What number am I?

Q.5 Move any four matches to get 3 equilateral triangles only .

For Q.5

For answers:

1. Wait for the next newsletter (or)
2. Meet Ms. Poonam Malhotra, Assistant Prof. of Mathematics. :-)
