## New Year Celebration

The New Year celebration at Echelon College of Engineering commenced with a sense of joy and devotion, as students and faculty members gathered together for a special worshipping and offering ceremony.

The ceremony began with the lighting of the sacred fire for the Hawan, involves offering prayers to the deities while making offerings into the fire. As the fire blazed brightly, students and faculty members chanted mantras and hymns, invoking the blessings of the gods and goddesses

The New Year celebration at Echelon College of Engineering was a truly memorable event, filled with joy, devotion, and celebration. It was a wonderful way to welcome the New Year and to renew the commitment to the pursuit of knowledge and wisdom in a spirit of joy and gratitude.

## Lohri and Makar Sankranti Celebration

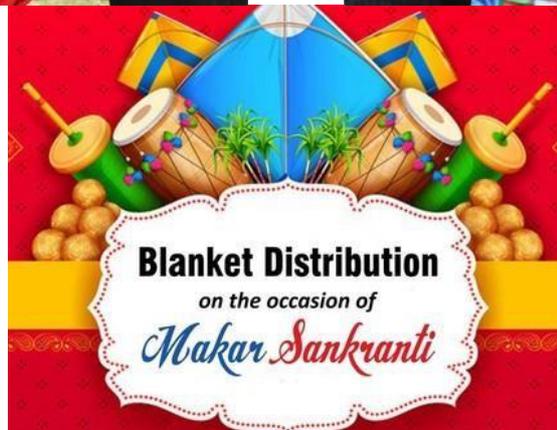

Echelon Institute of Technology celebrated the traditional festivals of Lohri and Makar Sankranti with great fervor and enthusiasm. The celebrations were marked by a special pooja ceremony and the distribution of blankets to the underprivileged. The festivities began with a traditional pooja ceremony, led by the faculty members and students of the institute.

The Lohri and Makar Sankranti celebrations at Echelon Institute of Technology were a beautiful expression of devotion, community spirit, and social welfare. The institute's commitment to these values is a testament to its vision of providing education that is rooted in tradition and guided by a spirit of service.

## Vasant Panchami and Republic Day Celebration

Echelon Institute of Technology celebrated the dual occasions of Vasant Panchami and Republic Day with great enthusiasm and fervor on January 25th. The event was made more vibrant by a collage-making competition organized by the Carpe-diem club, which saw enthusiastic participation from students. The Republic Day celebrations were marked by the hoisting of the national flag, followed by the singing of the national anthem. The celebrations at Echelon Institute of Technology were a testament to the institute's commitment to promoting a holistic education that emphasizes not just academic excellence but also creativity, culture, and social values. The event was a fitting tribute to the spirit of patriotism and creativity, and it left a lasting impression on all those who participated.

## Time-Table Automation Workshop

Echelon Institute of Technology hosted a workshop on Time-Table automation on 28th of Jan 2023. The workshop aimed to educate and train the students and faculty members of the institute on the latest advancements and techniques used in automating the time-table scheduling process.

The workshop covered a wide range of topics related to Time-Table automation, including the importance of automation in education, the challenges faced in manual scheduling, and the benefits of automating the time-table scheduling process.

Overall, the Time-Table automation workshop conducted by Echelon Institute of Technology was a huge success and helped the participants to stay updated with the latest trends and techniques used in automating the time-table scheduling process.

## National Science Day Celebration

Echelon Institute of Technology celebrated National Science Day on 28th February 2023 with a host of activities that aimed to create awareness about science and technology among the students. The Department of Science and Humanities organized the event, which included an expert talk by Dr. Rachna Jain and Dr. Priyanka Ahlawat, as well as a workshop on the detection of cancer cells using machine learning techniques.

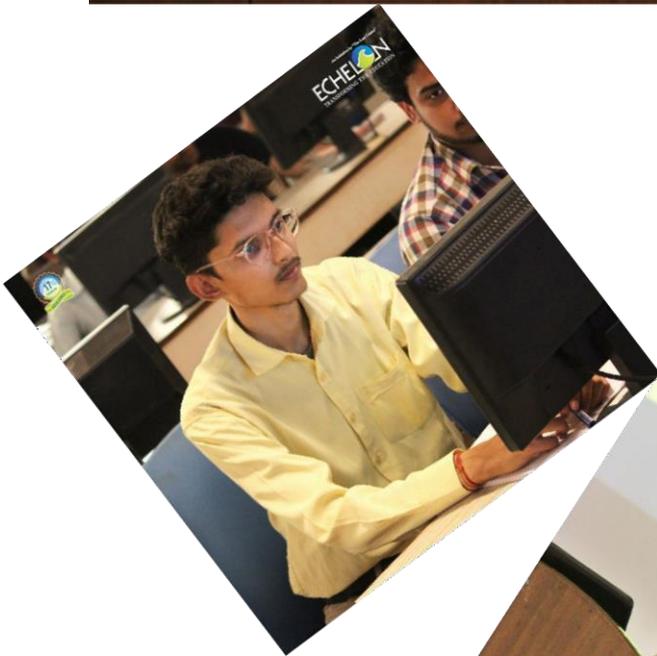

The students who attended the workshop expressed their appreciation for the opportunity to learn about machine learning techniques for cancer cell detection. They felt that the workshop provided valuable insights into the latest advancements in the field of biotechnology and helped them to develop their skills in machine learning.

Overall, the National Science Day celebration conducted by Echelon Institute of Technology was a huge success and helped the students to understand the importance of science and technology in achieving sustainable development goals.

## Faculty Development Program

Echelon Institute of Technology conducted a six-day Faculty Development Program (FDP) on Research Methodology for the faculty members. The program aimed to provide the faculty members with an understanding of the various research methods and techniques used in academic research.

The participants of the FDP expressed their appreciation for the opportunity to attend the program. They felt that the FDP provided them with a better understanding of the research methodology and equipped them with the necessary skills to conduct research of high quality.

Overall, the six-day Faculty Development Program conducted by Echelon Institute of Technology on Research Methodology was a resounding success in every way. It provided the faculty members with a valuable learning experience and helped them to enhance their research skills.
