## Meri Maati Mera Desh

The "Meri Maati Mera Desh" campaign organized an Amrit Kalash Yatra on October 11, 2023, aiming to establish Amrit Vatikas by planting 75 indigenous saplings. Participants, including students and faculty, symbolized unity and commitment to environmental conservation by carrying Mitti Kalash containing soil or rice from their homes. A Panch Pran pledge was taken, with individuals committing to plant at least 5 saplings each in the Amrit Vatika, aligning with the government's vision for a greener India. This initiative not only promoted environmental stewardship but also encouraged sustainable living practices, emphasizing the collective effort towards preserving the ecosystem and supporting national objectives for environmental sustainability and conservation.

## Blood Donation Camp

Echelon Institute of Technology, Faridabad, in collaboration with Divine Charitable Blood Bank, hosted a significant Blood Donation Camp on October 25th, 2023, from 10 am onwards. The event aimed to address the crucial need for blood supply in medical emergencies while nurturing a culture of altruism among students, faculty, and staff. Objectives included facilitating blood donation to aid patients, fostering social responsibility, and community participation. Alongside the donation drive, an awareness campaign dispelled myths about blood donation. Post-donation care and refreshments were provided, ensuring donors' well-being. The event increased awareness about regular blood donation, with active participation reflecting a commitment to social responsibility and empathy.

## National Unity Day

Echelon Institute of Technology celebrated National Unity Day on October 31st, 2023, with various activities aimed at promoting the spirit of unity and integration among students and faculty. The event featured engaging competitions like poster making and slogan writing, providing participants with a platform to express their views on national unity and diversity. Through these activities, students showcased their creativity and deepened their understanding of the importance of unity in fostering a harmonious society. The event served as a reminder of the shared values that bind the nation together, fostering a sense of belonging and solidarity among the campus community.

## Intra-College Volleyball tournament

The Sports Club of Echelon Institute of Technology organized a spirited Intra-College Volleyball tournament, titled "Volleyball Intra College," held on November 8th, 2023, at the Volleyball Court in the Sports Complex. Under the coordination of faculty members Mr. Lalit Rawat, Mr. Netrpal, and Mr. Kirpal, 31 participants from BBA, B.Tech, and BCA courses competed in a series of matches. The event comprised three sets per game, with Mr. Lalit Rawat serving as the main referee and Mr. Netrpal and Mr. Kirpal overseeing as scorekeepers. Teams led by Vansh Tyagi, Nikhil, and Gurdeep from B.Tech, BCA, and BBA respectively showcased exemplary sportsmanship, with BBA emerging as the event winners, B.Tech securing the runner-up position, and BCA claiming the third spot.

## Tree plantation activity

On November 21st, 2023, Echelon Institute of Technology organized a tree plantation activity aimed at contributing to environmental conservation and fostering a greener campus. The event saw enthusiastic participation from students, faculty, and staff, who collectively planted a variety of saplings across the campus grounds. Through this initiative, the institute demonstrated its commitment to sustainability and environmental stewardship. By planting trees, participants not only contributed to improving air quality and biodiversity but also enhanced the aesthetic appeal of the campus. This activity underscored the importance of individual and collective action in addressing environmental challenges and promoted a culture of responsibility towards preserving the natural environment.

## TECHELON-2023

On December 8th, 2023, the Echelon Institute of Technology hosted Techelon, a showcase of student innovation and practical application of knowledge. Throughout the event, students demonstrated their prowess by presenting various models they had developed, showcasing a blend of theoretical understanding and hands-on skill. From cutting-edge gadgets to sustainable engineering solutions, the exhibition highlighted the ingenuity and creativity fostered within the institute's academic environment. Techelon not only provided a platform for students to exhibit their projects but also served as a testament to the institution's commitment to nurturing innovative thinking and fostering technological advancement.

## SCIENCE EXHIBITION

On December 9th, 2023, Echelon Institute of Technology hosted an impactful science exhibition showcasing cutting-edge innovations across various disciplines. From robotics to renewable energy, attendees experienced a diverse range of projects, including autonomous vehicles, environmental solutions, and medical technologies. The event facilitated knowledge exchange and inspired future scientists and engineers, highlighting the institution's commitment to innovation and scientific exploration.
